*Produced with assistance from
Dr Edward Koch Foundation.*

In June 1995 the FNQ Suicide Prevention Taskforce was formed in response to the alarming rates of youth suicide in the region. The work of the group has continued and expanded with many initiatives developed for the community. The group's goals are to implement, support and promote strategies which aim at the reduction of suicide and self-harm.

You are not alone!

Life can be tough for the primary producer – no-one knows it better than you.

Sometimes we need someone to talk things over with. If you need a bloke to talk to, we have listed a few for your information.

They would be glad to hear from you at any time.

Remember

These men are only a phonecall away.
